BLUE RIDER

I have chosen to eliminate single-use plastic, minimize waste, and reduce the overall environmental footprint of my concert to advocate for human and environmental health.

Please implement the below where applicable

Eliminate the following single-use plastic items from backstage, green room, stage or dj booth and use approved sustainable alternatives.

Straws
Cups (Including Shot Glasses)
Beverage Bottles (Including Water)
Drink Stirrers and Toothpicks
Carry Bags or Gift Bags
Stickers

Plastic-Lined Coffee Cups & Lids
Dishware
Takeaway Containers
Utensils
Synthetic Fiber Towels

Individually Wrapped Condiments
Individually Wrapped Snacks
Plastic or Plastic-Lined Coasters
Ice Bags
Gum

Request to remove or replace where possible:

Plastic Wristbands
Plastic Confetti, Glitter, and Balloons
Plastic Banners, Ceiling Decor, and Props

Provide Sustainable Transportation

For transfers, please ensure this is by the greenest method available. (i.e electric/ hybrid vehicles, EV shuttles, trains over flights, or public transportation and shared rides over private vehicles.)

Carbon Offsetting

If booking travel, please carbon offset my air and ground transportation. This is widely available and cost-effective.

- Recommendations include:
  SeaGrass Grow, Trees For Life,
  Sea Trees, Grow Clean Air

Blue Rider is part of the Blue Music Industry Program

The Blue Standard Music Program engages artists, tours, promoters, agencies, nightlife venues, concerts, and festivals in setting a new industry standard around sustainability.

The program includes a free, open-source music guide that features best practices on eliminating single-use plastics, waste diversion, sustainable production, travel, and engaging fans and merchandise.
